

Materialise NV to Report Third Quarter 2014 Earnings on Wednesday, November 12, 2014

October 27, 2014

LEUVEN, Belgium, Oct. 27, 2014 (GLOBE NEWSWIRE) -- Materialise NV (Nasdaq:MTLS), a leading provider of additive manufacturing software and of sophisticated 3D printing services, today announced that it will release financial results for the quarter ended September 30, 2014 on Wednesday, November 12, 2014 at 6:30 a.m. ET/12:30 CET. Senior management will hold a conference call to discuss the third quarter 2014 financial results on the same day, Wednesday, November 12, 2014, at 8:30 a.m. ET/14:30 CET.

Dial-in numbers for the conference call are as follows:

- U.S. Dial In: 844-469-2530
- International Dial In: 765-507-2679
- Passcode: 20109601

To access the conference call, please dial in at least 10 minutes prior to the start of the conference call.

A live audio webcast can be accessed under the Investor Relations tab of Materialise's website, www.materialise.com, in the News and Events section.

A replay of the conference call will be available via telephone beginning approximately one hour after the call ends through Thursday, November 13, 2014. U.S. participants can access the replay by dialing 855-859-2056 and international participants can dial 404-537-3406. The access code for the replay is 20109601. A webcast of the conference call will be archived on the company's website for one year.

About Materialise

With its headquarters in Leuven, Belgium, and branches worldwide, Materialise is a provider of Additive Manufacturing (AM) software solutions and sophisticated 3D printing services in a wide variety of industries, including healthcare, automotive, aerospace, art and design and consumer products. Materialise has been playing an active role in the field of AM since 1990, through its involvement in AM for industrial and medical applications, by providing biomedical and clinical solutions such as medical image processing and surgical simulations and by developing unique solutions for its customers' prototyping, production, and medical needs.
