

Materialise to Participate in Jefferies 3D Printing Summit on Tuesday, March 29, 2016

March 16, 2016

LEUVEN, Belgium, March 16, 2016 (GLOBE NEWSWIRE) -- Materialise NV (NASDAQ:MTLS), a leading provider of additive manufacturing software and of sophisticated 3D printing solutions, today announced that management will participate in the Jefferies 3D Printing Summit on Tuesday, March 29, 2016.

Founder and CEO Fried Vancraen will attend the invitation-only summit, to be held at the Jefferies Conference Center in New York City. Mr. Vancraen will meet one-on-one with institutional investors throughout the day.

To obtain additional information about Materialise's participation in the summit, please contact LHA. Attendees can also contact their Jefferies representative to arrange a meeting.

About Materialise

Materialise incorporates more than 25 years of 3D printing experience into a range of software solutions and 3D printing services, which together form the backbone of the 3D printing industry. Materialise's open and flexible solutions enable players in a wide variety of industries, including healthcare, automotive, aerospace, art and design, and consumer goods, to build innovative 3D printing applications that aim to make the world a better and healthier place. Headquartered in Belgium, with branches worldwide, Materialise combines one of the largest groups of software developers in the industry with one of the largest 3D printing facilities in the world.
